## ***DETAILED ACTION***

### ***Status of Claims***

In response to the communication filed 10/29/2008, claim 3 is pending in this application. Claims 1-2, 4-6, and 9-12 are cancelled herein, and claims 7 and 8 have been cancelled previously.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of the relevant portion of 35 U.S.C. 103 that forms the basis for the rejections made in this section of the office action;

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains.

**Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Toshiya et al. (Japanese pub# 2001-273375) in combination with 'North Carolina Bar Exam Results – July 2001 EXAM'.**

**Regarding claim 3,** Toshiya discloses a system for distributing exam results which sends a user an email asking if the user wants to view exam results, and upon a user reply, sends another email to the user containing a link (network address) containing the results. See paragraphs 0001 and 0018-0020. Toshiya also discloses in paragraph 0021 that examinees are identified by examinee numbers. Although Toshiya discloses wherein the results can include the results of other examinees willing to share, (see paragraph 0026), there is no teaching wherein it is ID numbers in close proximity with corresponding results that is transmitted to the examinee (in order to provide a sample of test results to lessen the psychological impact of the examinees score). However, posting and releasing exam information including information about other

examinees has been common for many years (e.g. results of exams were typically posted on boards wherein the scores were ranked and identified by Social Security number, student ID number, etc.). Consider the enclosed reference, which is a copy of a website displaying pass/fail information about bar exam results for the state of North Carolina in 2001. Note that information about multiple examinees is presented. It would have been obvious to one of ordinary skill in the art at the time of the invention to include such information about multiple examinees in other systems as well, including Toshiya, in order to allow the examinee to see how they performed in a comparative sense with fellow examinees, as is already well established in the art.

### ***Response to Arguments***

Applicant's arguments dated 10/29/2008 have been fully considered, but are moot in view of the new grounds of rejection.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
